

# Traffic Calming Considerations for North Avenue, a National Highway System (NHS) Route

» **Traffic calming is the combination of vertical and horizontal measures that:**

- Reduce the negative effects of motor vehicle use (for example, speeding)
- Alter driver behavior
- Improve conditions for bicycles and pedestrians

## Vertical Measures

Measure	Applicable to NHS Routes	Possible for North Avenue
Speed Hump/Table		
Raised Right Turn/ Crosswalk	✓	✓
Raised Intersection		

## Horizontal Measures

Measure	Applicable to NHS Routes	Possible for North Avenue
Roundabout	✓	✓
Chicane		
Bump Out		
Narrower Lanes	✓	✓
Neighborhood Traffic Circles
